

Spring 2023 - Intensive Training Series

Child and Adolescent Mental Health for Primary Care Clinicians

Sunday, May 7th • 8:30 am - 3:45 pm **and** Monday, May 8th • 8:30 am - 12:15 pm

This live, virtual CME event is at no cost to all pediatric, family medicine and psychiatric clinicians in New York. For more information, visit our website www.ProjectTEACHny.org or [Click here to register today!](#)

Course Description

This intensive training program empowers primary care clinicians to assess, treat and manage common mental health concerns in their practice. The training series is a seven-week program that includes the 1 ½ day training and six follow-up sessions. It is presented by Project TEACH's faculty of child and adolescent psychiatrists and pediatricians. Offered via Zoom, this virtual program is designed to provide practical information, specifically for PCCs, to address mild-to-moderate mental health concerns. While medication management will be addressed, a comprehensive approach to treatment will be discussed.

Course modules include:

- Trauma-Informed Care: Recognizing the importance of trauma and what to do in the primary care setting.
- Depression: Screening, diagnosis and management in the primary care setting.
- Anxiety: Screening, diagnosis and management in the primary care setting.
- ADHD: Screening, diagnosis and management in the primary care setting.
- Aggression: Understanding, assessing and addressing aggression in children and adolescents.
- Reimbursement & Implementation: Ensuring appropriate payment for mental health services in a primary care setting.

Target Audience

New York State physicians, residents, psychiatrists, psychologists, NPs, PAs, nurses, and social workers and staff affiliated with PCC offices.
